The following items have been moved (migrated) to Production for use by Agencies beginning on March 22, 2003.

- The WGI process was updated for the following
  - In the past, some employees were paid locality even though they were in non-locality areas. A fix has been entered to prevent this.

These issues will be reported PeopleSoft as well.

- When appointment extensions were processed in the past, the 90-Day Code was updated based on the original appointment. This code has been updated so that the 90-Day Code is derived from the Hire NTE date on the Data Control Page.
